

User Experiment Questionnaire

Please rate each of the following 11 questions on a scale of 1 to 5.

(5: Strongly agree, 4: Agree, 3: Neither agree nor disagree / Don't know, 2: Disagree, 1: Strongly disagree)

1. I would like to use this application more often.
2. I felt this application was unnecessarily complex.
3. I found this application easy to use.
4. I felt that technical support was necessary to use this application.
5. I thought the various features of this application were well integrated.
6. I found many inconsistencies in this application.
7. I thought most people would be able to understand how to use this application right away.
8. I found using the application very tedious.
9. I feel confident that I can use this application.
10. I feel that there is a lot to learn before using this application.
11. I thought this application would likely exist as a service when smart glasses become widely available.

We informed you beforehand that movement of the video would occur during the experiment, but we did not provide details about the movement. In this experiment, we conducted two types of movement: "a slow forward (backward) movement of the entire video over a 15-second period" and "an instantaneous forward (backward) movement of the entire video."

Please answer the following two questions with either "○" or "×."

- A. Did you notice that a slow forward (backward) movement of the entire video lasting 15 seconds occurred during the application?
- B. Did you notice that the entire video suddenly moved forward (backward) during the application?

[Only for those who answered "○" to question A] Please rate the following questions on a scale of 1 to 5.

(5: Strongly agree, 4: Agree, 3: Neither agree nor disagree / Don't know, 2: Disagree, 1: Strongly disagree)

- C. If you had not been informed that the video on the smart glasses was moving, you would not have noticed that the entire video was slowly moving forward (backward).

[Only for those who selected B] Please rate the following questions on a scale of 1 to 5.

(5: Strongly agree, 4: Agree, 3: Neither agree nor disagree / Don' t know, 2: Dis agree, 1: Strongly disagree)

D. If I had not been informed that the image on the smart glasses was moving, I would not have noticed that the entire image had instantly moved forward (backward).
